

REMINDERS

BEFORE YOUR MOBILE DAIRY CLASSROOM PRESENTATION

- **QUIET** Remember cows are animals that can be unpredictable when under stress! Please encourage students to remain quiet to avoid startling the cow.
- **FARM SMELLS** The cow did come straight from the farm, so she will probably smell like the farm! You might want to warn your students of the unfamiliar smell.
- **OUTSIDE** The presentations will take place outside, make sure that students are dressed appropriately.
- **SEATING** Students should be seated on concrete for the presentation. This way wet grass and those nasty, little fire ants and yellow jackets are avoided.
